

Members Conduct Statement Essex District

Whatever I or any other member shares here is their own opinion and does not necessarily represent the opinion of this group or of CA as a whole.

A message about 13th Stepping – 13th stepping is manipulating another person in recovery, especially a newcomer, into a sexual, emotional, or romantic relationship. This behaviour is wholeheartedly discouraged in C.A.

A newcomer is defined by this meeting as someone with less than one year of continuous clean time. It is strongly advised that during this time, men stick with men and women stick with women. So please be mindful when sharing personal information online, Or in any forum.
